## Experiences

### Advanced Schema

Full-stack Developer (2022-)

Advanced Schema is a data solutions specialist offering 20+ years of experience. They provide user-centered, performance-focused solutions.

NEST.JS   JAVA   ANGULAR   POSTGRESQL

### Synerg'hetic

Backend Developer (2022-2023)

Synerg'hetic is a junior enterprise that operates as a student-run digital agency. It is affiliated with the school HETIC.

I initially joined Synerg'hetic to quickly finish a project that was months behind schedule.

DOCKER   KOA   STRAPI

## Projects

See more projects on [github.com/arthur-fontaine](https://github.com/arthur-fontaine)

### Adeupa

[adeupa.co](https://adeupa.co)

A POC of a PWA that aims to bring people closer to small businesses.

This is my favorite project. It is the final project of my first year at HETIC. As the team leader, I had to make sure that my colleagues, people who were new to web development could produce a PWA that was very high quality in every way.

REACT   TYPESCRIPT   FASTIFY   PRISMA

### Whitebird

[github.com/bywhitebird](https://github.com/bywhitebird)

An organisation that develops open source software.

This is a personal project that started in late 2022. The goal of Whitebird is to develop software and tools that simplify the work of those in the digital field.
